Company profile: The company is a leading worldwide supplier of non-magnetic steel drillstring components as well as of internals and parts used in the highly sophisticated directional drilling industry. The Group specializes in components for the directional drilling technology and is one of the world's leading suppliers of specialty drillstring components.

MWD („Measurement While Drilling“)- and LWD („Logging While Drilling“)- Collars and NMDC's are manufactured by Schoeller-Bleckmann Oilfield Technology in Ternitz, Austria, Internals and Parts are manufactured by Knust-SBO and Godwin-SBO in Houston, USA. Furthermore, the group manufactures drilling motors as well as drilling tools and offers a wide range of repair and maintenance services for oilfield equipment. SBO's group companies are present in all major operating

centers of the global oil drilling industry and are operating independently.
